

# eZuce Licensing Services

There is an ability to push license UID to remote Uniteme server using REST API or script.

Set license UID:

POST: <https://server/sipxconfig/api/license/{uid}>

Get license details:

GET: <https://server/sipxconfig/api/license/>

Example command:

```
curl --digest -k -X GET https://superadmin:12345678@10.4.0.103/sipxconfig/api/license
```

Response:

```
{"uid":"3398724202272694","domain":"gabi.test","version":"19.08","expire":"31-Dec-2039","support":"31-Dec-2039","licenseType":"Subscription","users":10000,"mobileDevices":10000,"company":"developers","contactEmail":"martin.harcar@ezuce.com","contactName":"martin","contactPhone":"454614465465"}
```

Example command:

```
curl --digest -k -X POST https://superadmin:12345678@10.4.0.103/sipxconfig/api/license/508316691110519
```

Response:

```
{"uid":"508316691110519","domain":"gabi.test","version":"19.08","expire":"31-Dec-2039","support":"31-Dec-2039","licenseType":"Subscription","users":500,"mobileDevices":500,"company":"developers","contactEmail":"martin.harcar@ezuce.com","contactName":"martin","contactPhone":"454614465465"}
```
